Dear Chairwoman Granger and Ranking Member DeLauro:

I am requesting funding for S.R. 224: Battery Electric Bus and Bus Rapid Transit (BRT) Project, Park City, UT, Third Congressional District in fiscal year 2024. The entity to receive funding for this project is Park City Municipal Corporation, located at 445 Marsac Ave, Park City, UT 84060. The funding would be used for the development of a Battery Electric Bus and Bus Rapid Transit Project. The project is an appropriate use of taxpayer funds because the BRT improvements will increase the number of people who can move through and along the corridor, increase access to opportunity for underserved neighborhoods and low-income populations in the region who depend on transit, and deliver significant environmental benefits and improve safety for all types of travelers who rely on S.R. 224 to reach their destinations on time. The project has a Federal nexus because the funding provided is for purposes authorized by chapter 53 of title 49 of the United States Code. I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink, appearing to read "John R. Curtis", followed by a long horizontal flourish line extending to the right.
